## OBJECTIVES

---

To start my career as a Full Stack Developer where I can apply my knowledge of HTML, CSS, Python, and Django to design and develop responsive, user-friendly web applications. I am eager to learn new technologies, improve my coding skills, and contribute effectively to real-world projects while growing as a developer.

## PROJECTS

---

### ***E-commerce Website for Toys Shop***

Developed a Full Stack web application for an online toys shop using Django, Python, HTML, and CSS. Implemented core features like product listing, shopping cart, checkout, and order confirmation. Designed a user-friendly interface and handled both frontend and backend for smooth shopping experience.

### ***Media Vlogs Website (Internship Project)***

Developed a Full Stack media vlogs website using Django, Python, HTML, CSS, and JavaScript. Created features for uploading and viewing videos and audios with public/private access. Implemented user registration, login, and profile management for better user experience. Enabled logged-in users to like and comment on media content to increase engagement.

## ACHIEVEMENTS

---

- Paper Presentation Nov 2024 – Participated in the National-Level Technical Symposium INFONIX 2K24 Conducted by University College of Engineering, Villupuram.
- Participated in the National Conference on Engineering Innovation and Application NCEIA-2K25 conducted by Krishnasamy College of Engineering and Technology, Cuddalore
- Google cloud- beginner data analysis

## TECHNICAL SKILLS

---

- ✓ Programming Languages: Python, HTML/CSS, Javascript
- ✓ Frameworks: Django

## EDUCATION

---

### ***E.S College of Engineering and Technology***

B.E Computer Science and Engineering – CGPA : 81% upto 6<sup>th</sup> semester
